We can help in times of need

Almost everyone at some time in their lives experiences financial hardship. For retirees especially with limited income, some unforeseen event or other life circumstance can cause difficulties and unwelcome complications.

Do you need some help financially to make life a little easier?

We can help. The NatWest Group Pensioners Benevolent Fund (formerly known as the RBS Group Pensioners Benevolent Fund) is a UK registered charity for retired employees and their dependants and is totally independent of the Bank. It is managed by a board of Trustees, all volunteers, who are retired employees themselves.

If you're a pensioner of any current or former company within the NatWest Group you, or someone who is financially dependent on you, qualify to be considered for a financial grant.

The Fund was set up in 1979 with a donation of £1000 from the NatWest Group Pensioners' Association. Since its launch, no funding has been received directly from the Bank. Instead income has been received from legacies, bequests and donations from retirees, and deposit interest and dividends from investments.

Over the last twenty years, the Benevolent Fund has granted over £340,000 to pensioners needing a helping hand. Perhaps we can help you towards the cost of a needed item. You have to be in need and be able to meet the qualifying criteria based on income and savings.

How we can help you

Our financial grants cover a wide spectrum of needs.

- From replacing a broken set of glasses
- To providing showering facilities when using a bath becomes too difficult.
- From providing a mobility device.
- To replacement or repairs to central heating boilers.
- From providing a new set of dentures.
- To providing a chair lift.

We promise that we will consider all applications. If we are unable to cover the whole of the amount you're applying for we may still be able to cover a proportion of the cost.

“My grateful thanks for the cheque for the mattress. I am delighted to tell you that after only three nights the pain in my back and limbs has abated.”
